

Unilift AP35B, AP50B

End-of-Life Information

Grundfos Unilift AP35B and AP50B wastewater pumps must be disposed of according to local regulations by using a public or private waste collection service. If this is not possible, contact the nearest Grundfos company or service workshop.

Safety Risk

- Safety related to materials used
There is no risk for people during the disassembly process posed by the materials used for the product.
- Safety related for handling the product
The oil chamber of the pump contains 60 ml non-toxic oil (Shell Ondina 15).

Disassembly of the Product

The main materials of the components are:

- Stainless steel
- Copper
- Aluminium
- Rubber material (NBR)

and can therefore be recycled to a large extent – depending on the national possibilities for recycling.

The motor unit cannot be disassembled with standard tools as the motor unit is welded. A saw might be of help here.

There are no loose parts inside the motor.

Designation	Name	Material	Special Disassembly Consideration
1	Motor unit	Stainless steel, Copper and Aluminium	
2	Impeller	Stainless steel	
3	Pump housing	Stainless steel	
4	Upper	Stainless steel	
5	Pump inlet	Stainless steel	
6	Base	Stainless steel	
Additional materials:		Screws, gaskets, cable etc.: Various materials less than 5% of weight
