

CUE controllers

End-of-Life Information

Grundfos CU200, CU300 and CU301 controllers must be disposed of according to local regulations by using a public or private waste collection service. If this is not possible, contact the nearest Grundfos company or service workshop.

Safety Risk

Safety related to materials used

- There is no risk for people during the disassembly process posed by the materials used in the product.

Safety related to handling the product

- Care should be taken when handling the pump/components due to the weight.

Disassembly of the Product

The main materials of the components are:

- Polyamide composite
- Various electronic components
- Aluminium (only CU200)

CU200, CU300, CU301 controllers can therefore be recycled to a large extent – depending on the national possibilities for recycling.

Designation	Name	Material	Special Disassembly Consideration
1	Front cover Front foil (Electronics)	Polyamide Polyester (with electronics) PCB with components	
2	Electronics	PCB with components	
3	Back cover	Polyamide	
4	Cable entry	Polyamide	
5	Mounting plate (CU200)	Aluminium	
Additional materials:		Screws, gaskets etc.: Various materials less than 5% of weight
