

IOXXX, CUXXX

End-of-Life Information

Grundfos CU211, CU212, CU213, CU214, CU215 and IO111, IO112 and IO113 controllers must be disposed of according to local regulations by using a public or private waste collection service. If this is not possible, contact the nearest Grundfos company or service workshop.

Safety Risk

- Safety related to materials used
There is no risk for people during the disassembly process posed by the materials used in the product.
- Safety related to handling the product
Care should be taken when handling the pump/components due to the weight.

Disassembly of the Product

The main materials of the components are:

- Polyamide composite
- Various electronic components
- Aluminium

CU211, CU212, CU213, CU214, CU215 and IO111, IO112 and IO113 controllers can therefore be recycled to a large extend – depending on the national possibilities for recycling.

Designation	Name	Material	Special Disassembly Consideration
1	Front cover Front foil	Polyamide Polyester	
2	Printed circuit board	Glass fiber, copper, tin	
3	Screws	Steel	
4	Printed circuit board	Aluminium	
5	Back cover	Polyamide	
6	Screws	Steel	
Additional materials:		Labels, connector etc.: Various materials less than 5% of weight.
