

MGFlex motor

End-of-Life Information

Grundfos MGFlex motors must be disposed of according to local regulations by using a public or private waste collection service. If this is not possible, contact the nearest Grundfos company or service workshop.

Safety Risk

Safety related to materials used

- There is no risk for people during the disassembly process posed by the materials used in the product.

Safety related to handling the product

- Care should be taken when handling the motor due to the weight.

Disassembly of the Product

- MGFlex consist of the same components as MGE/MLE (Async / Model H) motors. Please refer to the corresponding documentation available.
