

# Unilift AP

## End-of-Life Information

Grundfos Unilift AP water pumps must be disposed of according to local regulations by using a public or private waste collection service. If this is not possible, contact the nearest Grundfos company or service workshop.

## Safety Risk

- Safety related to materials used  
There is no risk for people during the disassembly process posed by the materials used for the product.
- Safety related for handling the product  
The oil chamber of the pump contains 60 ml non-toxic oil (Shell Ondina 15).

## Disassembly of the Product

The main materials of the components are:

- Stainless steel
- Copper
- Aluminium
- Rubber material (NBR)

and can therefore be recycled to a large extent – depending on the national possibilities for recycling.

The pump is assembled by using screws and bolts and can be disassembled with standard tools. There are no loose parts inside the motor.

Designation	Name	Material	Special Disassembly Consideration
1	Pump sleeve	Stainless steel	
2	Motor unit	Stainless steel, Copper and Aluminium	
3	Pipe	Stainless steel	
4	Upper pump housing	Stainless steel	
5	Impeller	Stainless steel	
6	Pump inlet	Stainless steel	
7	Strainer	Stainless steel	
<b>Additional materials:</b>		Screws, gaskets, cable etc.: Various materials less than 5% of weight
