

GRUNDFOS GO GUARANTEE 5 YEARS PEACE OF MIND

The Grundfos Go Guarantee is a 5 year manufacturer's guarantee that offers you added security, directly from commissioning, via a simple registration process.

This great benefit is available for all **MAGNA3/TPE/NBE and NKE** models*.

What does this mean for you:

- **additional security for your business**
- **less vulnerability within your pump stock**
- **a straightforward course of action in the event of a guarantee incident.**

In order to take advantage of these benefits you simply need to register your pump via the free GRUNDFOS GO REMOTE app: and create a GRUNDFOS GO report. When complete send your report to go.uk@grundfos.com

We will then email you back and once accepted, your 5 year guarantee period will commence with immediate effect.

*This guarantee is linked directly to the product, as opposed to the installer, operator or site location. T&Cs apply.
