Possibility in every drop

What does Grundfos Leasing Solution include?

Reasons to lease from Grundfos

Cost efficiency

There's no stress of a costly initial investment. Instead, you'll get a fixed monthly fee, giving you a clearer overview of your expenses.

Maintenance and monitoring

Tired of unexpected breakdowns? With our monitoring solutions, you can be alerted to issues before it's too late, which can create significant savings and reduce unexpected, costly downtime.

Improved sustainability

Our solutions are built to be energy-efficient, meaning that you'll improve your environmental footprint and take a step in the right direction to meet any sustainability requirements.

Grundfos covers a wide range of applications

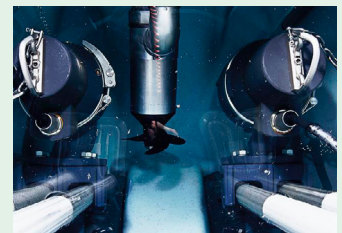

Pressure boosting

Heating

Cooling

Wastewater
